

TRAIL Photographers

SPONSOR MEDIA KIT

About

Theme - Nature Trail Photography:

TRAIL Photographers magazine was created to promote photography that is taken on the trails and back country of North America. The location of the shot, trail name and even GPS coordinates (if available) are requested to accompany all image submissions. Our primary mission is to encourage others to get out and enjoy the great outdoors be it hiking, camping, etc.

Coverage Area

Submissions will be considered if the photo was taken on any trail located in the North American continent. Photographer's home or place of business is not a requirement. All photographer skill levels are welcome.

Aesthetic/Genres

TRAIL Photographers magazine publishes only family friendly content. We want the whole family to be able to enjoy our publication.
